About Me

A proficient and motivated computer scientist looking to expand his knowledge and expertise in software development. Experienced in designing and developing websites for individuals and a non-profit organization, and is excited to work on more complex problems and projects in a team-setting for a larger institution.

Experience

Project:STEAM'D

1/2022 - Current

Web Developer

- Designed and developed the website for the non-profit organization.
- WordPress, CSS, Docker
- Link: <http://projectsteamd.org>

Pixel Dreamland LLC

8/2020 - 10/2021

Application Developer

- Created a tongue-twister Android application that utilizes a MySQL database hosted on Amazon RDS. The app connects to a web server set up with Spring, hosted on an Amazon EC2 server in a Tomcat container, allowing for the addition of new tongue twisters without redeploying the app.
- MySQL
- Link: <https://play.google.com/store/apps/details?id=com.pixeldreamland.tonguetwister>

Resume Website

2020-2022

Web Developer

- Created a resume website containing information about myself and my projects.
- Designed and implemented a snake game using HTML5 and JavaScript to engage visitors.
- Angular, HTML5, CSS, JavaScript/TypeScript
- Link: <https://bartosz-kidacki.github.io/>

Rutgers University

09/2019

Undergraduate Student

- Led a team of three to develop a website for a local carpooling system.
- Utilized all phases of software development including project planning, requirement analysis, architectural design, coding, testing, and delivery.
- HTML, PHP, JavaScript, MySQL

Education

Rutgers University

2020

Bachelor of Science in Computer Science

Skills

Coding Languages

Java
SQL
HTML5
JavaScript
CSS
C++
Python

Frameworks/Environments

Windows
Linux
MySQL
Docker
Angular
Spring
IntelliJ IDEA
Eclipse

Soft

Critical thinking
Problem solving
Team work
Conflict management
Design

Languages

English
Polish
