WORK EXPERIENCE

Web Developer, Project: STEAM'd, Remote (August 2022- March 2023)

- Developed and designed a website for the non-profit company, Project: STEAM'd, resulting in increased engagement and donations. (WordPress, CSS)

EDUCATION

Rutgers University, New Brunswick, NJ

Bachelor of Science in Computer Science, Graduated January 2020

Selected Coursework: Computer Architecture, Data Structures, Systems Programming, Design and Analysis of Computer Algorithms, Mathematical Theory of Probability, Software Methodology, Numerical Analysis and Computing, Principles of Information and Data Management, Internet Technology

PERSONAL PROJECTS

Tongue Twister App (Java, SQL, Spring)

- Created a tongue twister Android application that utilizes a MySQL database hosted on Amazon RDS. The app connects to a web server set up with Spring, hosted on an Amazon EC2 server in a Tomcat container, allowing for the addition of new tongue twisters without redeploying the app.

- Available on Google Play: https://play.google.com/store/apps/details?id=com.pixeldreamland.tonguetwister

Resume Website (Angular, HTML5, CSS, JavaScript/TypeScript)

- Created a resume website containing information about myself and my projects.

- Designed and implemented a snake game using HTML5 and JavaScript to engage visitors: https://bartosz-kidacki.github.io/

PROJECTS: Rutgers University

Carpooling Website Project (HTML, PHP, JavaScript, MySQL)

- Led a team of three to develop a website for a local carpooling system.

- Utilized all phases of software development including project planning, requirement analysis, architectural design, coding, testing, and delivery.

SKILLS

Programming Languages: Java, SQL, CSS, HTML, JavaScript, C, Python

Technologies/ Environments: Angular, Spring, Git, Windows, Linux, MySQL, Eclipse, IntelliJ IDEA, Docker
